

CHEMNITZ IS NEITHER GREY NOR BROWN

Call For Projects

Who we are...

We are a joint initiative by the »Kreatives Chemnitz e.V.« and »Industrieverein Sachsen 1828 e.V.« associations that works to combine business and science activities and the work of city interest groups to show that, despite the events of late August 2018, Chemnitz is a diverse and colourful place that is much more than it seems.

What we want...

We are looking for project ideas that meet the following criteria: ideas should be scalable (capable of being expanded) and presented as sketches on two A4 pages. They should be exemplar in nature, i.e. transferable to other locations. It is not necessary to provide cost estimates unless the project is part of a larger project, in which case other funding sources and the total budget should be indicated. Implementation costs should be in the region of € 15,000 and the project should be implemented before 30 June 2019. Applicants will be required to participate in project evaluation, the awards ceremony and publicity in the media.

We attach particular importance to:

- Encouraging people to treat each other with respect, in line with the principles of freedom and democracy enshrined in the law and in particular the constitution
- Encouraging constructive communication in order to improve social conditions
- Helping migrants find employment

How will this be supported...

Ten of the ideas submitted will receive an unconditional award of € 1,000. 3 of these ideas will be selected for implementation by Kreatives Chemnitz e.V., Industrieverein Sachsen 1828 e.V. and the Sparkasse Chemnitz, which will each fund a project of their choosing. Should one of the seven projects not selected get the opportunity to be implemented via a third party within half a year, we will support its implementation with a further award of € 2,000 (for the same project size as originally proposed). Further funding may be available if required for cofinanced projects.
